

# “SUPER”

## Just Got Even Better!

Looking for a High-Volume filter for your Low-Volume fryer?  
Our revolutionary, patented High-Profile F-23LV with pleated filter technology is like 2 filters in 1, which is perfect for today’s Low-Volume fryers.

When trying to fry the same amount of food in 40% less oil, our innovative pleats act as a pre-filter trapping debris and allowing oil to filter through.

The High-Profile F-23LV has all the advantages of the SuperSorb® CarbonPad—

🔥 Less Oil Usage    🔥 Reduced Labor    🔥 Consistent Food Quality

+ Even **Longer** Oil Life and **Only** 1 Filter Change-Out per Day = Even **Greater** Realized Savings!

Do you need a High-Volume filter  
for your Low-Volume fryer?

The Budget-Friendly, Eco-Friendly High-Profile F-23LV is the solution!

 **FILTERCORP**  
*Bottom line,  
Your Proven Profit Multiplier.*
