

Installation Instructions

Pitco Solo (Built-In) Filtration System

SUPERSORB[®] CARBONPADS

Getting the most out of your frying program

- 1)** The Pitco Solstice Built-In Filtration System will look similar to the photo shown right.

- 2)** The Pitco Solstice Built-In Filter Machine needs to be adapted to use Filtercorp's F-16 Unifit Adapter Kit.

- 3)** After the Pitco Paper holder has been removed, insert the Filtercorp F-16 Unifit Adapter Kit which includes the filter base, flex hose, and new fitting, into the pan so that it sits flush on the bottom of the pan (shown right).

- 4)** After filtering, crumb debris may need to be scraped clean. Allow the F-16 Unifit to cool before scraping the CarbonPad with a spatula. Always use heat resistant gloves, apron, and face shield.

NOTE: Install the CarbonPad with the smooth side against the screen, bumpy side out.
